Form fields:

- ID:
- Fullname:
- Gender:
- Phone:
- GPA:
- Enrollment Date:
- Major:

Buttons:

This is the entire layout of the project.

It has 8 components in the form that accepts user inputs. These include the

- ID
- Fullname
- Gender
- Phone number
- GPA
- Enrollment Date
- Major
- Find student

We have also implemented the CRUD features, save is create, edit is update, read is find, and delete is delete.

Examples of CRUD

Message

Data has been updated in the database!

OK

If the student decides to change majors, we can use the edit button to change the desired major. The edit button also works on all the user input forms except the user_id since that is a primary key and it cannot be changed.

If the edit is successful, there will be a pop up box saying that it was successful. This uses JOptionPane.

The clear button is to clear the user inputs. Below is the before and after.
